Marie,

Sorry for the delay of getting results to you.

Attached are the lab results from this years visits, as well as some trending results.

Both tested negative for TB.

Joyce reports she is giving Betsy 24 Units of Lantus insulin.

Bambi's weight was 7.20 lbs, down from 7.6 lbs.

She received 0.25 mL of ketamine (100 mg.mL) and 0.20 mL of midazolam (5 mg/mL), both by intramuscular injection.

Betsy's weight was 7.84 lbs, down from 8 lbs.

She received 0.30 mL of ketamine (100 mg.mL) and 0.25 mL of midazolam (5 mg/mL), both by intramuscular injection.

Thank you,
John

Compassionate Care Veterinary Hospital of Manlius, PC
Dr. John Endres

Eberlein, Joyce

2/6/2014

Bambi

Capuchin 23 yrs. old Female 7.91 lb.

Ocular:

Stable small pinpoint pigment or dark spot caudal right lens capsule, no active inflammation noted.

Cardiovascular:

Stable heart murmur, grade 2/6 (soft, low intensity murmur that does not mask the normal heart sounds).

Mucus membranes are pink, heart rhythm is normal, and pulses are strong and synchronous with each heart beat.

Integumentary:

Soft, subcutaneous lump on the underside of the base of the tail, size stable at about 2 cm diameter.

TB test results negative.

Betsy

Capuchin 23 yrs. old Female 8.03 lb.

Cardiovascular:

Stable heart murmur, grade 2/6 (soft, low intensity murmur that does not mask the normal heart sounds).

Mucus membranes are pink, heart rhythm is normal, and pulses are strong and synchronous with each heart beat.

Respiratory:

Bilateral nostril discharge in each nares, dry and slightly crusty.

No erythema, ulceration, or swelling under discharge.

Normal lung and airway sounds.

Integumentary:

Small, raised tan dermal mass located over the right upper eyelid, size stable at about 3 mm diameter.

TB test results negative.

Fax: 617-787-5665

Bambi's feeding schedule

att: Lisa/Maria

Breakfast 9 A.M. - dash Viobase-V

1/4 Centrum adult chewable Vit.
1/2 cup cooked Old fashion Oatmeal
1/4 Teaspoon Cinnamon
1 Squirt 3V cups liquid mixed in oatmeal

11 A.M. 1/2 cup green beans - canned - no salt added

Lunch 1 P.M. dash of Viobase V - 1/2 Teaspoon p. butter
(5) 5mo2 ~~finger~~ biscuits

3 P.M. snack

1 oz deli chicken or

1/8 slice of apple & 1 in shell peanut - salt free

Supper 5 P.M.

Same as lunch

7:30 P.M. dash Viobase-V 1/2 Teaspoon natural applesauce
(4) 5mo2 biscuits
night time blanket & pillow

9 P.M. 1/2 inch Banana cut in 4 pieces & 3 small Blue
berries
lights out - bed time

Bambi & Betsy are on the same feeding schedule
and food except for cooked Turkey which Bambi
will not eat.

Betsy 7:30 feeding gets 2 oz of cooked Turkey, instead
of biscuits

May 27, 1992

Dear Jackie,

We are currently updating each monkey's medical record and would like to be sure that our health information on your monkey is both complete and up to date. We have noted the information that currently is in your monkey's file at this time. We would appreciate your assistance in verifying that this information is current and in providing the requested information for any of the following procedures that your monkey may have undergone (and that we currently do not have in your monkey's file). Please also note details of any additional surgical procedures, tests, illnesses or injuries that are not specified below. Additional paper or copies of your vet's records may be attached to provide details.

	Date	Veterinarian	Notable Details
Last TB test	3.12.92		
Last fecal	3.12.92		
Neutering			
Tooth extractions	3.12.92		absessed (L) k-9 pulled I' and k-9' also pulled
Last vet visit	3.12.92		
CBC & Blood Chemistry (to be done only once while your monkey is in your care or as needed for diagnosis of illness)	5/1/91		

Elena K. Anderson DM

Date	Condition	Notable Details
------	-----------	-----------------

1. To complete a Vet Visit Form* for all future health care/problems. If your monkey had a health problem that did not require a visit to your veterinarian, please fill out the vet form yourself and return it to Helping Hands.
2. That your monkey is required to have an annual check-up ~~that includes a fecal exam and TB test.~~ If your monkey has not had these tests within the last year, please make an appointment with your veterinarian as soon as possible.

Sincerely,

*Please send more Vet Visit Forms.
